

cl POS Management

cashless 3.0™

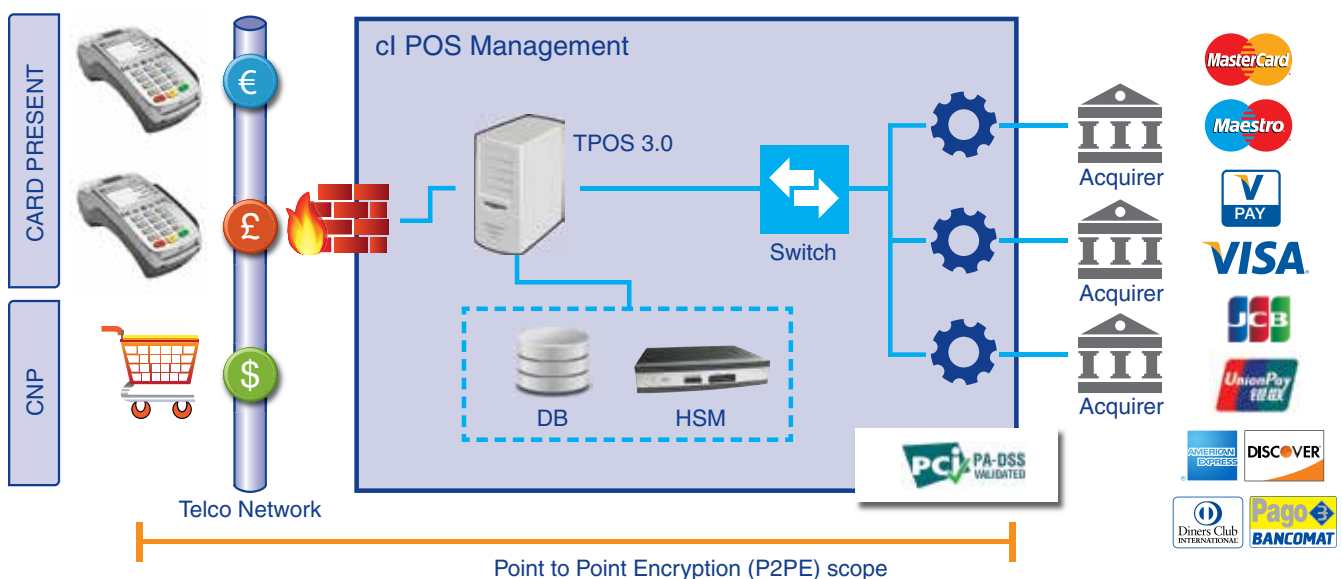

A unique multi-acquirer
card present and CNP solution
for cross border merchants.

Overcome terminal-to-acquirer standards fragmentation in payment acceptance markets. The cl POS Management solution, part of **cashless 3.0**, maximizes on recent regulations for cross border acquiring and point-to-point encryption (P2PE) certification.

Large merchants who have hundreds or even thousands of stores have thousands of point-of-sale (POS) systems and PIN entry devices (PEDs) requiring PCI compliance. Achieving and maintaining this is complex, time consuming and costly for PSPs.

Built for Payment Service Providers to offer convenient propositions to merchants, cl POS Management inserts P2PE during transactions to avoid security breaches, whether in-store or e-commerce initiated. The result: PSPs enjoy significant money savings.

Functionalities

Benefits and advantages:

- Acceptance of all card schemes plus charge cards (Amex, Diners, JCB)
- Magstripe / Contact / Contactless
- Transaction data
- PEDs Status message
- Unique ID transaction
- Tokenization
- Standard data extraction for reconciliation and reporting
- Payments
 - ◆ Authorisation and settlement
 - ◆ Refund
 - ◆ Reversal / Void
 - ◆ Referrals
 - ◆ Offline
 - ◆ Pre-Authorisation
 - ◆ Cash-Back
 - ◆ 3DSecure & CVN Processing
 - ◆ MOTO
 - ◆ DCC
 - ◆ Tax Free
 - ◆ Installment
 - ◆ Gratuity/TIP
 - ◆ Loyalty
- Multi - BANKING
- Multi - LANGUAGE
- Multi - CURRENCY
- Multi - COUNTRY
- Multi - ACQUIRER

cl POS Management functionalities also available as SaaS from the TAS Group Data Centers.

Components

cl POS Management consists of:

- Terminal management & monitoring console
 - ◆ Terminal configuration
 - ◆ EMV parameters
 - ◆ BIN tables
 - ◆ File download scheduling
- Transaction processing engine
 - ◆ Data capture
