

# Housing, Hosting and International Networks Capabilities

## Autonomous Public System: AS8554

- RIPE Local Internet Registry
- Autonomous routing and traffic management
- Unlimited IP addresses allocation

## 5 Points of Presence in France et Italy

Redundant fiber channel backbone n\* 1 Gbps

2 Datacenters in Sophia Antipolis

Low latency Internet access:

Sophia - Paris : 16 msec RTT | Sophia - Milan : 8 msec RTT

## 3 Points of Peering

Sfinx, FranceIX, Equinix

## IP Transit with International Network Operators

- Level3
- Cogent
- Opentransit-Orange
- Interoute

## Performances and SLAs

- Lan-to-Lan, MPLS, Transit IP v4 et v6, ...
- Security : VPN, Firewall, IPS, redundant DDoS protection
- Availability: 99,99%
- Recovery time : 4 hours
- Traffic latency: intra-Europe 50ms, USA&Canada 80ms
- Packets delivery: 99,9%

Redundancy – Service Continuity  
Local Presence – International capabilities
